DNA – Note Sheet

Name: _____ Class Period: _____

NOTES

1. What is DNA?

_____
_____
_____

2. Where is it located?

_____
_____
_____
_____

3. What are the 4 bases and how are they paired?

_____
_____
_____
_____
_____

4. What substances make up the backbone of the DNA molecule?

_____
_____
_____
_____
_____

QUICK REVIEW

Why is DNA called the double helix?

_____

_____

_____

What is the base pairing rule?

_____

_____

_____

The backbone of the DNA molecule is made up of repeating units of what substances?

_____

_____

_____

_____

What is the job of DNA?

_____

_____

_____

_____
