

University of Hawai'i STEM Pre-Academy is excited to host the first of two virtual workshops on the art of seed saving.

Save Seeds, Save Our Future

Virtual Workshop for K-12 Educators

Saturday, April 23, 2022

8:30 am – 11:30 am

"Every seed has a story."

Tyler Levine - Founder, Seeds of Honua

In this workshop, Hawai'i teachers will learn and share seed saving practices that preserve the islands' biodiversity, and encourage self-sufficiency for future generations.

Join us to be inspired and learn from passionate *keiki o ka 'āina* barely older than your own students!

Presenter Tyler Levine, a high school junior and Founder of Seeds of Honua, and **Contributor Keoni Lorenzo**, a UH Mānoa student, represent a generation of fearless agents of change dedicated to securing an ecologically sustainable future for our world.

Debbie Millikan, 'Iolani School Sustainability Specialist, will facilitate teacher discussion on successfully integrating these hands-on experiences into your classroom and school programs.

Workshop Outcomes

- Ability to apply **techniques and best practices for basic seed saving**: harvesting, processing, and storing seeds; and germination testing.
- Appreciation of the role of seed saving in **food production and food self-sufficiency**, reforestation, and maintaining **biodiversity** in Hawai'i.
- Leave with strategies for applying **seed saving techniques in the classroom**.
- Access to educational resources, including **teacher- and community-developed lessons and activities**.

Environmental preservation right in your classroom!

Register Now! ➡ bit.ly/seeds-registration

Free Seed Saving Kits for the first 15 teacher attendees and a free Classroom Kit for each of the first 5 teacher teams!

Keoni Lorenzo,
Seed Story Contributor

Sophomore, UHM, majoring in Natural Resources and Environmental Management and 'Ōlelo Hawai'i

Debbie Millikan, PhD
Curriculum Discussion Facilitator

Sustainability Specialist at 'Iolani School; Coordinator of the O'ahu Farm to School Network; Co-Founder, Seeds of Honua

Additional contributors: Parker Sawyer, 6th grade teacher, Rainbow Pharaon, K-6 teacher and sustainability coordinator from Ka'ōhao Charter School, and Yinan Wang, 8th grade student at Washington Middle School.

This workshop series is supported by the GEER-funded STEAM Entrepreneurship and Research project.
